## Kilimanjaro Christian Medical Centre

Dorothy Dow, Aisa Shayo, Nyasatu Chamba,  
Fortunata Nasuwa, Angelina Goi

## Muhimbili University of Health and Allied Sciences

Lusajo Kajula, Nina Yamanis, Mrema Kilonzo

**30 April 2024**

# Mission

Leverage implementation science research to bring innovative and evidence-based solutions across multiple sectors to prevent and treat adolescent HIV in Tanzania

Elevate the youth voice and support early-stage investigators in implementation science research, preparing the next generation

# Vision

- Working across sectors together to end HIV for adolescents and helping them to thrive

# AIMS of T-AHISA

2021- 2023

- Aim 1: To formally establish a sustainable network of key Tanzanian stakeholders engaged in adolescent HIV-focused interventions and programs.
- Aim 2: Develop an evidence informed Implementation Science Research agenda
- Aim 3: Build coordination and capacity of high-impact implementation research and researchers in country

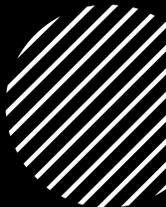

# AIMS of T-AHISA 2.0

2024 to  
present

- Aim 1: Strengthen and expand our existing network of key Tanzanian stakeholders engaged in adolescent HIV-focused research.
- Aim 2: Recruit new talent to adolescent HIV implementation science research.
- Aim 3: Increase capacity of ISR across disciplines, institutions, and sectors to bolster innovation and impact of adolescent HIV prevention and treatment interventions.

# How to accomplish our aims

**Monthly team meetings with a project coordinator**  
(share progress updates, goals, and vision)

**Research Database**

Track important Tanzanian adolescent HIV Research

**Connecting with the government**

(TACAIDS quarterly AYAS meetings, NAIA, MoE)

**Connecting with youth and community**

(Youth CABs and building research advocacy)

**Gaining Visibility**

Social media handle, quarterly newsletter, website

**Annual Stakeholder Meeting**

(Build a network, build agenda, build capacity, )

# Expected outcomes from this meeting

## **Sustain T-AHISA together**

Strengthen our network of key stakeholders engaged in Adolescent HIV research and programming across Tanzania

Advance an evidence informed research agenda for Adolescent HIV ISR priorities

Identify potential Tanzanian Implementation Science Research mentors

Prepare for changes in PEPFAR (or foreign HIV prevention, care, and treatment funding)

## **Engagement is ongoing through:**
